Professional Summary

Senior iOS Engineer with 14+ years of experience building 25+ scalable, high-availability iOS applications across **Fintech**, **Healthcare**, **OTT/Media**, **E-Commerce**, and **Hospitality**. Currently leading end-to-end development of Emirates NBD's flagship iOS app, built on a modular architecture using **Swift**, **SwiftUI**, and **Combine**. Expertise includes SwiftUI/UIKit modernization, async/await concurrency, BLE/IoT integrations, DRM-enabled video streaming, and CI/CD. Proven leader of teams of up to five engineers, skilled in cross-functional collaboration and all phases of testing (performance, functional, and UAT), with 99% app stability.

Technical Skills

- **Programming Languages:** Swift, Objective-C, SQL
- **Frameworks and Libraries:** SwiftUI, UIKit, Combine, Core Data, Core Bluetooth, AVKit, Foundation
- **Architectural Patterns:** MVC, MVVM, SOLID Principles, Clean Architecture, Dependency Injection, Modular Architecture
- **Concurrency and Performance:** Swift Concurrency (async/await), Grand Central Dispatch (GCD), OperationQueue, Multithreading, Performance Optimization, Memory Management, Battery Efficiency, Instruments
- **Data, Networking, and Security:** REST (Representational State Transfer) APIs, URLSession, Alamofire, JSON, SQLite, Firebase, Encryption, Session Management, Secure Key Management
- **Streaming, DRM, and IoT:** HLS (HTTP Live Streaming), Fragmented MP4, FairPlay DRM (Digital Rights Management), AirPlay, AVKit, Verimatrix, Enghouse/Vydeo, Core Bluetooth, BLE (Bluetooth Low Energy), Serial Port Communication, Offline Sync
- **Tools, Testing, and CI/CD:** Xcode, Git, GitHub, GitLab, CocoaPods, Swift Package Manager (SPM), Jira, Confluence, App Store Connect, XCTest (Unit Testing, UI Testing), TestFlight, Jenkins, CI/CD (Continuous Integration and Continuous Deployment), UAT (User Acceptance Testing)
- **Domains and Methods:** Fintech, Mobile Banking, Healthcare, OTT/Media & Entertainment, E-Commerce, Hospitality, Agile, Scrum, Code Review, Mentoring, Cross-Functional Collaboration

Professional Experience

- **Emirates NBD** • *Senior Software Engineer - iOS* Bengaluru, India • *Sep 2025 – Present*
  - Lead end-to-end development and continuous evolution of the Emirates NBD iOS banking app, shipping reliable features for a high-traffic Fintech platform serving retail customers.
  - Design and implement a modular, scalable architecture using Swift, SwiftUI, and Combine, boosting maintainability, testability, and feature release velocity.
  - Adopt async/await concurrency across API and network flows, simplifying code and speeding responses.
  - Harden data security and compliance with strong encryption and session handling.
  - Spearhead migration of legacy Objective-C modules to Swift and SwiftUI, modernizing the codebase and preserving long-term maintainability.
  - Optimize app performance, memory usage, and battery efficiency for a seamless user experience.

- **R Systems** • *Project Leader - iOS* Remote, India • *May 2016 – Aug 2024*
  - Led a team of up to five iOS engineers, mentoring developers and contributing to 25+ application releases across OTT, Healthcare, Enterprise, and Consumer domains.
  - Migrated 3+ applications from UIKit to SwiftUI, lifting code readability by 40%, trimming technical debt, and raising app speed by 20% while ensuring future scalability.
  - Developed OTT application solutions for 5+ providers, integrating AirPlay and FairPlay DRM, resulting in a 30% increase in premium content distribution and user engagement.
  - Engineered fragmented MP4 integration in HLS for iOS playback, yielding a 25% boost in playback efficiency and a 15% drop in buffering time.
  - Implemented BLE and serial port communication, allowing seamless interaction with 50+ connected devices, while adding offline support for uninterrupted functionality.
  - Devised encryption key retrieval mechanisms for OTT clients, strengthened offline content controls by 35%, and supported access to safeguarded media in low-connectivity environments.

- **Magnon Group** • *Senior Associate - iOS* Noida, India • *Feb 2015 – May 2016*
  - Architected a recruitment app from scratch for the media, entertainment, and creative industries, streamlining talent sourcing for over 10,000 users and shortening hiring time by 25% through efficient engagement and portfolio tools.

- **Intelegencia** • *Software Engineer - iOS* Noida, India • *Sep 2012 – Feb 2015*
  - Upgraded a cloud-based backup app for Verizon, bolstering resilience and scalability for 1M+ users, accelerating retrieval speeds by 30%, and ensuring encrypted storage for photos, videos, and contacts.

Projects

- **ENBD Business** App Store
  - Launched and refined the corporate app with 4 core workflows: biometric login, account dashboards, quick payments, and multiple payment approvals for on-the-go access.
- **EI Business** App Store
  - Delivered the Emirates Islamic app across 5 releases in under 2 months, earning a 5.0-star App Store rating while giving commercial clients biometric access and simplified payment approvals.
- **Biomedix** App Store
  - Authored and advanced the Biomedix diagnostic solution, enabling rapid diagnosis of Peripheral Artery Disease (PAD) for 10,000+ patients, raising early detection rates by 20%, and elevating patient outcomes by 15% through faster, more accurate testing.
- **Verimatrix** App Store
  - Innovated a comprehensive security application for streaming media, reinforcing digital content safeguards for 1M+ users and achieving a 40% drop in unauthorized access incidents, preserving premium content revenue through robust defenses and encryption protocols.
- **Verizon Cloud** App Store
  - Built and evolved Verizon Cloud, an encrypted backup and storage app for photos, videos, documents, and contacts, supporting unlimited storage across devices, a PIN-locked private folder, Tag and Search, Locations, and original-quality backups for 5M+ users; expanded file accessibility by 35% and lowered backup time by 20%.
- **Talentrack** App Store
  - Composed a talent-hiring app for the Media & Entertainment industry, enabling over 8,000 artists to showcase portfolios and connect with 500+ recruiters, simplifying recruitment and cutting time-to-hire by 30%.

Education

- **Madan Mohan Malaviya University of Technology (MMMUT)** • *Bachelor of Technology (B.Tech), Computer Science & Engineering*
  Gorakhpur, India • *2006 – 2010*
