Professional Summary

Senior iOS Engineer with 13+ years of experience delivering over 25 secure, scalable iOS applications across **FinTech**, **Healthcare**, **OTT/Media**, **E-Commerce**, and **Hospitality**. Currently leading end-to-end development of the Emirates NBD iOS mobile banking application, with modular architecture using **Swift**, **SwiftUI**, and **Combine**. Expertise includes SwiftUI/UIKit modernization, async/await concurrency, BLE/IoT integrations, DRM-protected video streaming, and CI/CD. Proven leader of teams of up to five engineers, with strength in cross-functional collaboration, all phases of testing (performance, functional, UAT), and 99% app stability.

Technical Skills

- **Programming Languages:** Swift, Objective-C, SQL
- **Frameworks and Libraries:** SwiftUI, UIKit, Combine, Core Data, Core Bluetooth, AVKit, Foundation
- **Architectural Patterns:** MVC, MVVM, SOLID Principles, Clean Architecture, Dependency Injection, Modular Architecture
- **Concurrency and Performance:** async/await, Grand Central Dispatch (GCD), OperationQueue, Multithreading, Performance Optimization, Memory Management, Battery Efficiency, Instruments
- **Data, Networking and Security:** RESTful APIs, URLSession, Alamofire, JSON, SQLite, Firebase, Encryption, Secure Session Management, Secure Key Management
- **Streaming, DRM and IoT:** HLS, Fragmented MP4, FairPlay DRM, AirPlay, AVKit, Verimatrix, Enghouse/Vydeo, Core Bluetooth, BLE, Serial Port Communication, Offline Sync
- **Tools, Testing and CI/CD:** Xcode, Git, GitHub, GitLab, CocoaPods, Swift Package Manager (SPM), Jira, Confluence, App Store Connect, XCTest, TestFlight, Jenkins, CI/CD, UAT
- **Domains and Methods:** FinTech, Mobile Banking, Healthcare, OTT/Media & Entertainment, E-Commerce, Hospitality, Agile, Scrum, Code Review, Mentoring, Cross-Functional Collaboration

Professional Experience

- **Emirates NBD** • *Senior Software Engineer - iOS* Bengaluru, India • *Sep 2025 - Present*
  - Lead end-to-end development and enhancement of the Emirates NBD iOS mobile banking application, delivering secure, customer-facing features for a high-traffic FinTech platform.
  - Design and implement modular, scalable architecture using Swift, SwiftUI, and Combine, improving maintainability, testability, and feature delivery velocity.
  - Implement async/await concurrency across networking and data flows, improving code readability and API responsiveness.
  - Strengthen data security and compliance with advanced encryption and secure session management.
  - Spearhead migration of legacy Objective-C modules to Swift and SwiftUI, modernizing the codebase and improving maintainability.
  - Optimize app performance, memory management, and battery efficiency for a seamless user experience.

- **R Systems** • *Project Leader - iOS* Remote, India • *May 2016 - Aug 2024*
  - Led a team of up to five iOS engineers, mentoring developers and contributing to delivery of 25+ applications across OTT, Healthcare, Enterprise, and Consumer domains.
  - Migrated 3+ applications from UIKit to SwiftUI, improving code readability by 40%, reducing technical debt and increasing performance by 20%, while ensuring future scalability.
  - Developed OTT application solutions for 5+ providers, integrating AirPlay streaming and FairPlay DRM, resulting in a 30% increase in secure content delivery and user engagement.
  - Designed fragmented MP4 integration in HLS for iOS streaming, leading to a 25% boost in streaming performance and a 15% reduction in buffering times.
  - Implemented BLE and serial port communication, allowing seamless interaction with 50+ connected devices, while adding offline support for uninterrupted functionality.
  - Designed secure key retrieval mechanisms for OTT clients, improved offline content security by 35%, and supported access to protected media in low-connectivity environments.

- **Magnon Group** • *Senior Associate - iOS* Noida, India • *Feb 2015 - May 2016*
  - Architected a recruitment app from scratch for the media, entertainment, and creative industries, streamlining talent sourcing for over 10,000 users and reducing hiring time by 25% through efficient engagement and portfolio management features.

- **Intelegencia** • *Software Engineer - iOS* Noida, India • *Sep 2012 - Feb 2015*
  - Upgraded a cloud-based backup app for Verizon, enhancing security and scalability for 1M+ users, improving data retrieval speeds by 30%, and ensuring secure storage for photos, videos, and contacts.

Projects

- **ENBD Business** App Store
  - Built and enhanced ENBD Business, Emirates NBD's mobile banking app for business and corporate clients, delivering biometric login, account dashboards, quick payments, and multiple payment approvals for secure on-the-go banking.
- **EI Business** App Store
  - Delivered EI Business for Emirates Islamic, providing business and corporate clients with an intuitive banking experience, biometric access, and simplified payment approvals.
- **Biomedix** App Store
  - Authored and enhanced the Biomedix Xchange solution, improving rapid diagnosis of Peripheral Artery Disease (PAD) for 10,000+ patients, increasing early detection rates by 20% and improving patient outcomes by 15% through faster, accurate testing.
- **Verimatrix** App Store
  - Innovated an advanced security application for streaming media, enhancing digital content protection for over 1 million users and achieving a 40% reduction in unauthorized access incidents through robust security measures and encryption protocols.
- **Verizon Cloud** App Store
  - Built and enhanced Verizon Cloud, a secure backup and storage app for photos, videos, documents, and contacts, supporting unlimited storage across devices, PIN-protected private folder, Tag and Search, Locations, and original-quality backups for 5M+ users; improved data accessibility by 35% and reduced backup time by 20%.
- **Talentrack** App Store
  - Composed a talent-hiring app for the Media & Entertainment industry, enabling over 8,000 artists to showcase portfolios and connect with 500+ recruiters, which streamlined the hiring process and reduced time-to-hire by 30%.

Education

- **Madan Mohan Malaviya University of Technology (MMMTU)** • *Bachelor of Technology (B.Tech), Computer Science & Engineering* Gorakhpur, India • *2006 - 2010*
